

Solano

Technology

Shell

- I.M.A.C. injected - Impact Modified Alloy Composite
- XXS - XXL

Security

- PHPS™ - Phillips Head Protection System - Anti-Rotation
- A special strong anti-rotation membrane / 8 times extensible
- Fixed at the edges but lubricated with a special grease
- Slides over the surface of the shell during the first 15 milliseconds after the impact
- Imitates the natural movement of the skin over the skull
- During an impact, the membrane, moving on the helmet, reduces rotational impact to the brain, and consequently the risk of brain hemorrhage
- Compared to a conventional helmet, it reduces rotation up to 50% and increases the protection of your head and your brain by more than 67.5%
- Automatic Quick release buckle
- Anti-fog Pinlock® lens supplied
- Scratch resistant visor
- Wide peripheral vision
- Neck reflective zone
- EPS double density - Optimized upper insert protection

Interior/Comfort/Finishing

- Front and chin ventilation
- 100% removable and washable
- Morpho System - cheek and head pads available in your size
- Quick release visor system
- Comfortable fabric
- Removable nose deflector and chin curtain
- Removable peripheral visor seal
- Helmet bag
- +/- 1500 gr (L w/o Pinlock®)
- Large range of visors
